1. Last ned "**Codemeter**" fra "wibu.com/support/user/user-software.html"

2. Velg "**Windows 64-bit**" på operating system.

3. Last ned "**Codemeter user runtime for Windows**"

The screenshot shows the Wibu Systems website interface. At the top, there are social media icons for Facebook, LinkedIn, and Twitter, along with printer and email icons. Below this, there are two teal boxes with white text. The left box asks "Are you an end user?" and the right box asks "Are you a software developer?". Below these boxes, there is a search filter section with a search bar and two dropdown menus. The "Operating system" dropdown is set to "Windows 64-bit" and the "Language" dropdown is set to "english". A red box highlights these two dropdown menus, with a "1" next to it. To the right of the dropdowns is a "Search" button, which is also highlighted with a red box and a "2" next to it. Below the search filter, there is a section for "CodeMeter User Runtime for Windows" with a version dropdown set to "Version 7.30a | 2021-10-05 | multilanguage" and a "download" button (60.23 MB). The current selection is "Windows 64-bit". To the right of this section is the Windows logo.
